To download **Statistics for Data Science** eBook, please follow the link listed below and download the document or have accessibility to other information which are highly relevant to STATISTICS FOR DATA SCIENCE ebook.

Packt Publishing - ebooks Account. Paperback. Condition: New. 411 pages. Dimensions: 9.2in. x 7.5in. x 0.6in. Key Features No need to take a degree in statistics, read this book and get a strong stats base for data science if you are scared of statistics and are looking for real-world programs that explain statistics, this book is for you. Learn all about probability, statistics, numerical computations, and more with the help of programs. Book Description This book will take you through an entire journey of statistics from knowing very little to becoming comfortable in using various statistical methods for data science tasks. This book will start off with simple statistics and then move on to statistical methods that are used in data science algorithms. The programs for these statistical computations will be clearly explained along with the logic. You will come across various mathematical concepts such as variance, standard deviation, probability, matrix calculations, and more. You will learn only what is required to implement stats in data science tasks such as data cleaning, mining, and analysis. You will learn required statistics to perform tasks such as linear regression, regularization, model assessment, boosting, SVMs, and working with neural networks. By the end of the book, you will be comfortable with performing various statistical computations for data science programmatically. What you will learn Simple statistics, statistical methods that are used in data science algorithms. The programs and logic for these statistical computations will be clearly explained. Mathematical concepts such as variance, standard deviation, probability, matrix calculations, and more. Learn to implement stats in data science tasks such as data cleaning, mining, and analysis. Learn the required statistics to perform tasks such as linear regression, regularization, model assessment, boosting, SVMs, and working with neural networks. Get comfortable with performing various statistical computations for data science programmatically. This item ships from...
