

## Advanced Information Systems Engineering: 16th International Conference, Caise 2004, Riga, Latvia, June 7-11, 2004, Proceedings

Filesize: 8.33 MB

### **Reviews**

*This pdf is wonderful. It really is written in simple terms instead of hard to understand. It's been developed in an exceedingly simple way and it is just after I finished reading this ebook in which in fact modified me, altered the way in my opinion.*  
(Ollie Powlowski)

To read **Advanced Information Systems Engineering: 16th International Conference, Caise 2004, Riga, Latvia, June 7-11, 2004, Proceedings** eBook, you should click the hyperlink listed below and download the ebook or get access to additional information which are relevant to ADVANCED INFORMATION SYSTEMS ENGINEERING: 16TH INTERNATIONAL CONFERENCE, CAISE 2004, RIGA, LATVIA, JUNE 7-11, 2004, PROCEEDINGS ebook.

Springer. Paperback. Condition: New. 598 pages. Dimensions: 9.2in. x 6.0in. x 0.9in.th CAISE 2004 was the 16 in the series of International Conferences on Advanced Information Systems Engineering. In the year 2004 the conference was hosted by the Faculty of Computer Science and Information Technology, Riga Technical University, Latvia. Since the late 1980s, the CAISE conferences have provided a forum for the presentation and exchange of research results and practical experiences within the field of Information Systems Engineering. The conference theme of CAISE 2004 was Knowledge and Model Driven Information Systems Engineering for Networked Organizations. Modern businesses and IT systems are facing an ever more complex environment characterized by openness, variety, and change. Organizations are becoming less self-sufficient and increasingly dependent on business partners and other actors. These trends call for openness of business as well as IT systems, i. e. the ability to connect and interoperate with other systems. Furthermore, organizations are experiencing ever more variety in their business, in all conceivable dimensions. The different competencies required by the workforce are multiplying. In the same way, the variety in technology is overwhelming with a multitude of languages, platforms, devices, standards, and products. Moreover, organizations need to manage an environment that is constantly changing and where lead times, product life cycles, and partner relationships are shortening. The demand of having to constantly adapt to changing technologies and business practices has resulted in the birth of new ideas which may have a profound impact on the information systems engineering practices in future years, such as autonomic computing, component and services marketplaces and dynamically generated software. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.
