(From the book): The Happy Pill: Portrait of a Middle-Class Homeowner During the Fallout of Economic Meltdown takes a revealing tour along the road to global economic failure. This illuminating elixir of stories told by a former homeowner and small businessman travels from KFC-infused Kentucky to incense-rich Oman, and from coffee farming communities to the cafs of New Zealand to illustrate the common thread shared by neocons, rednecks, politicians, angry turtles, Trustafarians, mass media and real estate agents they all lend a hand in destroying the middle class. The book offers a critical examination of the forces behind the huge transfer of wealth that was executed by the same non-progressive politicians who are still hard at work in their ongoing efforts to impoverish Americans while we sit idly...
