

## Globalización, Posmodernidad y Educación

By Arostegui / Martínez

AKAL, 2018. Condition: Nuevo. En la época del relativismo, ¿cómo es posible que los mismos principios tiendan a aplicarse de manera homogénea en todo el mundo, olvidando precisamente que las circunstancias sociales y culturales hacen imposible tal uniformidad, máxime cuando disponemos de suficiente conocimiento pedagógico como para saber sobradamente que no existen recetas para educar? La única respuesta parece ser que el nuevo orden económico mundial, basado en el neoliberalismo, manifiesta su hegemonía en todos los ámbitos sociales, requiriendo una educación que forme en aquellos aspectos que las corporaciones multinacionales necesitan, y que al tiempo convierta el sistema educativo en parte del mundo de los negocios del que es posible obtener beneficios económicos. En donde así se consiga, se dice que es de «calidad». De este modo, la lógica neoliberal perfila no sólo el ámbito económico, sino también el político, el educativo y el cultural. Libro que trata de dar respuesta a los interrogantes que plantea la globalización en el ámbito de la educación ante la amenaza creciente del neoliberalismo como única solución.
