WIRELESS SENSOR AND ACTOR NETWORKS

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Localized Movement Control Algorithms for Maintaining Coverage and Connectivity | Wireless Sensor and Actor Networks (WSANs) are gaining growing interest because of their suitability for mission-critical applications that require autonomous and intelligent interaction with the environment. Hazardous application environments make actors susceptible to physical damage. Failure of a critical (i.e. cut-vertex) actor partitions the inter-actor network into disjointed segments while leaving a coverage hole. Maintaining inter-actor connectivity and coverage is extremely crucial...
