EXECUTIVE INTENT: A NOVEL

William Morrow, 2010. Book Condition: New. Brand New, Unread Copy in Perfect Condition. A+ Customer Service! Summary: The deadliest strike will come from outer space When America develops the most powerful defense system in history, will it be used to protect the nation-or will it be used to force universal domination? This question must be answered in the stillness of outer space and the corridors of the White House.The United States has just unleashed the most powerful weapon in history-a missile-launching satellite called Thor's Hammer that can strike anywhere on the planet in seconds. Now the United States stands unchecked in military dominance. Or does it? The world's other major superpowers, Russia and China, are rocked by America's development, and they scramble to respond by gaining control of the seas. When terrorists hijack Pakistani missiles and fire them at Indian cities, U.S. president Joseph Gardner has only one option: to use the untested Thor's Hammer. But something goes awry and the Hammer misses one of its targets, killing thousands of Pakistani civilians. In retaliation, Pakistan and the Middle East decide to give China strategic naval advantage by granting it access to Middle Eastern ports.To make matters worse, days after the crisis, Somali pirates board a Chinese freighter off the coast of Mogadishu and slaughter the crew. China responds by brutally attacking and then occupying Somalia, quickly setting up missile pads that can target U.S. naval ships across vital sea-lanes in the Indian Ocean and the Gulf of Aden, as well as any ships transiting the Suez Canal. Now the U.S. high command is on red alert and the country's security is in total jeopardy. . . .Another flash point quickly emerges-in Earth's orbit. When Chinese and Russian spacecraft surround an American space station, the threat is clear: negotiate and compromise...
