RARE BIRDS: THE EXTRAORDINARY TALE OF THE BERMUDA PETREL AND THE MAN WHO BROUGHT

Beacon Press. 1 Cloth(s), 2012. hard. Book Condition: New. Graceful and acrobatic, Bermuda petrels also known as cahows fly almost nonstop most of their lives, drinking seawater and sleeping on the wing. Millions of cahows once nested on the tiny archipelago, their sole breeding ground, until humans took up residence there 400 years ago and quickly wiped them out. Or so it was thought. In this inspiring book, Elizabeth Gehrman describes the astounding discovery of a hidden nest in 1951, witnessed by teenage birder David Wingate. From that moment, she tells us, Wingate dedicated his life to protecting and preserving the few remaining birds, including the incredible task of restoring Nonsuch Island to pre-settlement conditions as a new breeding ground for this Lazarus species. "There's nothing more exciting than a comeback story, and this is one for the ages. You will quickly find yourself rooting for cahows, or Bermuda petrels, a bird you likely didn't even know existed before opening these pages. And you'll be swept along by Elizabeth Gehrman's clean, racing prose as you learn about the threats the petrels face including Snowy owls, DDT and the American military as the species fights its way back to life. Finally, you'll meet the rarest bird of all, David Wingate, the gentle, stubborn, charming quixotic bird-man, who has staked his whole life on playing midwife to the bird's return." David Gessner 240.
